Electric Iron Blamed For Fire In Bedroom

A fire believed started by an iron left connected on an ironing board did extensive damage to a bedroom at the H. A. Page home, 81 Davis St., Saturday night while the family was away from home. Neighbors saw the flames through a window and called firemen, who extinguished the fire before it could spread to other rooms. The flames and smoke did damage estimated at several hundred dollars.

Firemen said the fact that all windows of the bedroom were closed prevented the fire from spreading, for lack of oxygen.

Councilmen Approve Sites For 'Climate Best' Signs

City Councilmen, accompanied by City Manager C. L. Dimmitt, Tuesday went on an inspection trip to two sites proposed by Dimmitt as sites for the "Climate Best by Government Test" signs owned by the city.

The councilmen approved the two locations selected by the city manager, over Main St. at Five Points, and over Claremont Ave. at El Camino Real.

City Manager Dimmitt then said there were some technical problems to be settled before the signs, removed when the highway widening work started last Fall, could be restored.

The double-faced sign, now to be used as two single signs, formerly was suspended over El Camino Real and Broadway, advising motorists traveling through the city of Redwood City's incomparable climatical benefits.

It is said that John Philip Sousa's famous band was heard only once by his mother. It made her so nervous that she never went to hear it again.

A relative may act as a witness to one securing United States citizenship papers only if the court approves.

Paul Mantz Seriously Hurt In Auto Crash

Paul Mantz, famous stunt and movie flier and a former Redwood City resident, suffered serious injuries in an automobile accident at Los Angeles last week-end. Mantz reportedly suffered a broken pelvis and internal and facial injuries. He was driving to the Metropolitan Airport to fly film to the Naval Air Station at San Diego, where he had been directing aerial photography in a film, "Dive Bomber."

His physician said it would be several months before Mantz would be able to fly again. He will be confined to the hospital for some time.

Bay Area Rents To Be Studied

A study of Bay Area residential rent changes since the Fall of 1939, requested by the National Defense Commission, will be made by the Bureau of Labor Statistics of the U. S. Department of Labor with the co-operation of real estate boards, chambers of commerce, labor organizations and local housing experts.

Influx of defense workers in this area resulted in a request for the study, it was reported in Washington, and followed announcement that the war department had awarded additional contracts to San Francisco clothing manufacturers.

It was expected the Peninsula area would be included in the rental study.

'Life of Christ' Film Will Be Shown Friday

"The Life of Christ," a motion picture depicting His life from the Nativity to the Ascension, will be shown at the Congregational Church at 8 p.m. tonight.

Scenes in the picture include the triumphal entry, trial, crucifixion and resurrection of Jesus, based upon and patterned after the world-famous Oberammergau and Frieburg passion plays. The picture was filmed in Europe, the Holy Land and Egypt.

The public is invited. There will be no admission charge, but a free-will offering will be taken to defray expenses.

When two bodies come in contact, as a bird flying against a building, the kinetic energy is absorbed by the building, and if it was free to move it would do so until stopped.

County Crop Damage Not As Bad As Expected

Seventy per cent of the San Mateo County Coastside's artichoke plants were lost during the heavy Winter rains, but replanting will be started soon on 2500 acres, according to Agricultural Commissioner Max J. Leonard. He said damage to all crops would not be as great as was indicated earlier.

Recent light rains have been a boon to county farmers, Leonard said.

Reviewing the damage of the Winter season, Leonard pointed out that although the artichoke plants were lost in the late rains, 90 per cent of the crop had been harvested in January.

Acreage in pea planting has been cut 30 or 40 per cent and delay in planting will mean a harvest late in June, about three or four weeks late, Leonard said.

Our Policy "Selling Produce by the Pound" Saves You Money

Food Prices and Profits

A Statement of Safeway Policy

THE forces of market disturbance, fear, and speculation, are at work. Prices for some basic commodities have already gone up. Increases in Safeway's retail prices on these items reflect the rise in wholesale cost, over which Safeway has no control.

It is a fundamental Safeway policy to earn only a small profit on each sale. Safeway pledges that during the period of war emergency it will not change this policy; and that in the future, as heretofore, it will make every effort through improved methods to reduce distribution cost—the difference between what the farmer gets and the consumer pays. You will always be able to buy from Safeway at the lowest prices available anywhere.

Consumers may assist materially in preventing unwarranted price increases by continuing their purchases on a normal scale. There are adequate supplies of food stuffs for every American. Hysterical buying which strips retail and wholesale stocks creates artificial scarcity, which pushes prices to abnormal levels.

Machinery exists within the government to control production, storage and release of commodities, imports, exports, quotas and prices—if it should become necessary to employ these methods to protect the economic welfare of the country.

Safeway further pledges complete cooperation with the governmental agencies and with farmer producers in all efforts to stabilize prices; discourage profiteering; and maintain orderly facilities for food distribution.

North Fair Oaks Man Succumbs At Home

A heart attack caused the death of William Wickman, 75, a retired San Francisco carpenter, at his week-end home, 246 18th Ave., North Fair Oaks, Sunday afternoon.

Mr. Wickman is survived by his wife, Elizabeth, and a daughter, Mrs. Edna Welsh of San Francisco. Funeral arrangements are in charge of the United Undertakers Mortuary of San Francisco.

PROPOSED INCREASES IN COUNTY SALARIES

For the fiscal year beginning July 1, 1941, the San Mateo County Salary Ordinance in the form now before the Board of Supervisors proposes an increase over the year closing June 30, 1941 amounting to $112,226

In the year ending June 30, 1941, compared with the fiscal year 1939-40, according to the County Controller's estimate, salaries were increased over 1939-40 by..... $68,274

The figures shown for 1941-42 below are not actually adopted and decision awaits completion of budget hearings.

The Civic League is convinced that the extraordinary requests made this year have created a situation difficult to meet, without severe pruning. The requests make a demand for dollars beyond the ability of the taxpayers of San Mateo County to pay without great personal and undue sacrifices.

Federal Defense taxes are beyond all former conception and will be increasingly great.

Without rigid economy, the future for taxpayers is indeed dark.

Salaries for Health and Welfare work are listed in this coming budget at $324,752

In the fiscal year ending June 30, 1935, salaries in all similar activities were $115,278

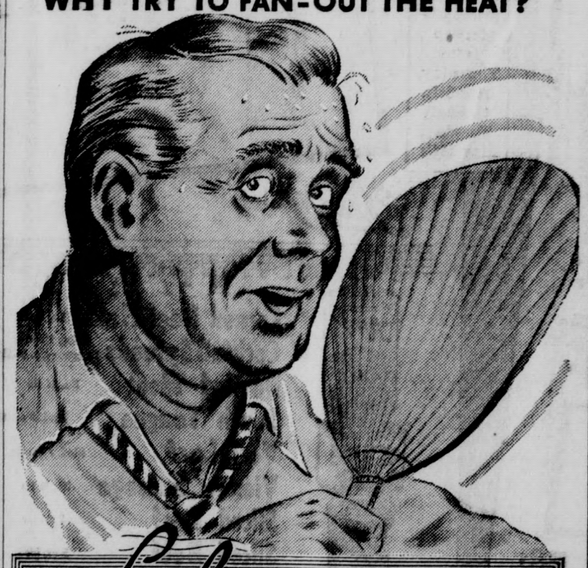
WHY TRY TO FAN-OUT THE HEAT?



BE *Cool* THIS SUMMER WITH
ELECTRIC COOLING

Is it HOT and DRY where you live and work?

Electric Evaporative Cooler

A fan is not much help giving comfort when the air is hot and dry as dust. You stir up the air, perspiration trickles down the back and you just get hotter and dryer. Let an Electric Evaporative Cooler blow a cool, refreshing breeze through the rooms of your home this summer. The Evaporative Cooler is low in first cost and inexpensive in operation. An Evaporative Cooler supplies cool moist air as if blown through a waterfall just outside the window.

Is it HOT and STICKY with heat and humidity where you live and work? In many parts of California it is the heat plus humidity that makes summertime a season of misery. Steamy heat must be changed to cool, dry air. A fan cannot do this. Only real Air Conditioning by means of the efficient Electric Room Cooler can do this. Inside is a freezing system with fans that draw in hot, humid air, then dry and chill this air and circulate it through a room.

Elderly Portola Man Found Dead In Cabin

The body of Albert Krug, 74, was found by sheriff's deputies in the elderly man's cabin near Portola Rd. at 8:30 p.m. Sunday evening. He apparently had died of natural causes about 20 hours before. Neighbors had not seen Mr. Krug around his home yesterday, and last evening notified the sheriff's office.

Mr. Krug, who had lived in this vicinity for several years, is survived by a nephew, Paul Krug, of San Francisco. Funeral arrangements are in charge of the Franklin & Crowe Mortuary in Redwood City.

1929 Drivers' License Cancellations Due

All holders of drivers' licenses issued in July or August of 1929 must obtain new licenses by June 1, it was announced today by Capt. E. F. Cassell, head of the San Mateo County unit of the State Highway Patrol. Captain Cassell said headquarters of the State Department of Motor Vehicles had issued orders cancelling all the July and August, 1929, licenses and those issued prior as of June 1.

Moral, Economic Education Discussed

Two different tasks of education were outlined by the two principal speakers for the convention of the California Congress of Parents and Teachers in Oakland yesterday, before the group of close to 3000 delegates, among them a number of Redwood City women.

Dr. Gertrude Laws, eminent educator and lecturer on parent education, spoke on "Moral and Spiritual Values of Life," in which she emphasized the task of education to build in each individual a basis for discrimination so that his acts may be on the positive side for good.

She also urged parents not to set such value on high marks and honors in school that their children in desperation are driven to cheat in order to make the expected grades.

The other speaker, Dr. Edwin A. Lee, dean of the School of Education at the University of California at Los Angeles, discussed education for economic efficiency.

"The world is now in the midst of a major revolution," he said. "It is a revolution that is political, economic, social and moral."

War's destructiveness, its "insatiable appetite for youth," he continued, will result in a reduction in the number of unemployed young men and a consequent rise in the employment of those not conscripted and a considerable increase of young women in jobs now occupied by men. He predicted lower standards of living, particularly for those accustomed to a luxurious life.

Closing sessions of the conclave were being held today.

R. C. Woman To Install PTA Officers

Las Lomitas Parent-Teacher Association members will meet at Las Lomitas School [illegible] afternoon at 1 o'clock to see an out-of-doors May Festival to be presented there by children of the school. There will be a Maypole dance and other features, and after the program, the PTA will hold a business session, at which Mrs. L. G. Owen of Redwood City, a past president of 17th District, California Congress of Parents and Teachers, will install the new officers.

Mrs. Lester Wolfe, incoming president, will report on the state convention of the California Congress of Parents and Teachers held in Oakland.

R. C. Youth To Complete Air Cadet Course Soon

James R. Curran of Redwood City will be a member of the class of flying cadets graduating from the Air Corps' advanced flying school at Stockton on May 29. Of the 137 cadets to graduate, 10 are from California. They will be commissioned as second lieutenants in the Air Corps Reserve. Curran, the son of Mr. and Mrs. Charles R. Curran of 467 Harrison Ave., attended Sequoia High School and San Jose State College.

This will be the third class to graduate from the Stockton training school. The training course is divided into primary, basic and advanced phases. The cadet begins training in a primary school, soloing in a slow, rudimentary plane, and then goes on to basic school at Moffett Field for instruction with faster, more intricate planes. In the third or final phase, at Stockton, he learns to use a still higher powered plane and acquaints himself with meteorology, radio code, navigation, engineering, military law, and other professional subjects.

Argentina is expected to have 200,000,000 bushels of wheat for export in 1941.

J-M FAMILY ALBUM

Asbestos Gloves for London—Ten thousand pairs of asbestos gloves for bomb-blasted London are being manufactured at the Johns Manville plants at Manville, N. J., and at Asbestos, Quebec, where J-M also operates the largest asbestos mine in the world. Asbestos gloves are only one item of thousands of articles needed in modern war to help civilian fire-fighters combat flames of bombs.

DOUBLE TALK

In an ordinary room sound dies quickly. But in one room of the J-M Research Laboratories at Manville, N. J., a person may be a barber shop quartet all by himself. He may even sing nine different parts at the same time because the sound is delayed as it travels from walls to floor to ceiling.

This room tests the efficiency of sound-absorbing materials made by J-M.

Lowell Thomas To Write J-M Ad

The inside story of the vital role America's great industries are playing in national defense will be told in a series of advertisements to be sponsored by Johns-Manville in the next few months. Lowell Thomas, famous radio commentator and author, will write the first of this series on the steel industry. It will appear in the May 24th issue of the *Saturday Evening Post*.

This new series will be a tribute to the men and women in the nation's factories, offices, laboratories and drafting rooms who are working day and night to make America strong.

Johns-Manville has been serving America's basic industries for 83 years. And J-M products help the steel industry, as well as many other of the country's industries, to produce materials for defense quickly and at the lowest possible cost.

REAL WAGES ARE HIGHER NOW

Wages are what a person receives for services rendered. Wages are usually paid in dollars and cents. Real wages differ from just wages because they take into account other things such as how much they will buy and how much work must be done to earn them. That's the only way persons can tell whether their standard of living is getting better or worse.

Real wages of J-M jobholders are much higher than they were in 1929 because (1) J-M factory hourly wage rates are 33 percent higher than in 1929, (2) the number of hours worked per week is 17.2 percent less, and finally, (3) according to the latest figures available from the U. S. Department of Labor, the cost of living has gone down 17.4 percent since 1929.

All of this means that J-M jobholders work fewer hours for higher wages and each dollar of these wages buys more than it did in 1929.

But, in wartimes the cost of living has a tendency to go up. If it does our standard of living may go down. That's why industry and government are trying to hold prices down. To do this they will need the support of every American. If prices are to be kept within reason, the costs of producing goods must be kept down all along the line.

MENLO PARK NEWS NOTES

MENLO PARK — Mrs. David Moore and her family are expected to arrive here shortly from California to spend the Summer with her mother, Mrs. A. Gale. Mr. Moore conducts a large dude ranch near Phoenix.

The mission conducted by Father Wagner at the Church of the Nativity is meeting with great success. The church is crowded nightly with people eager to hear the eloquent preacher. The mission will close on Sunday.

★ ★ ★

Miss Jennie Brennan, who won the purse of $5000 at the Bay Meadows race track last Saturday, is well known in Menlo Park, having resided here some years ago. The young lady is a cousin of the Lynch family here.

★ ★ ★

The city trustees met Tuesday evening. Only routine business was transacted. A meeting is to be held next week when matters pertaining to the police department will be taken up. Some sensations are expected.

★ ★ ★

Local real estate operators find it impossible to meet demands made upon them for cottages and small dwellings in this vicinity. There is not an empty house in Menlo Park. The demand is increasing daily. No doubt this is due to Menlo Park's excellent climate.

★ ★ ★

Mrs. P. P. Eyre has opened her Atherton home, where she will be joined by her son-in-law and daughter, Mr. and Mrs. Marshall Madison. The Madisons plan to leave the end of the month for a trip east before settling on the Peninsula.

The 26th District American Legion will visit the Veterans Administration Facility Sunday. It will be their annual Mothers Day and Hospital Day pilgrimage. The program will commence at 1 p.m. with a parade from the entrance of the hospital grounds to the baseball diamond, under the direction of Marshal Phil Blanchard, assisted by district officers.

Line of march: Massed colors; officers and members of the legion and auxiliary units of the 26th District; Jefferson Union High School band, directed by Dante Lembi; C. Whitney, Sons of the Legion chairman, and Sons of the Legion of the 26th District; Burlingame Boy Scout band; South San Francisco Boy Scout drill team; 26th District American Legion Auxiliary ritualistic team; 40 and 8 uniformed body.

After the parade, drills by the various teams will be performed and music by the bands will be enjoyed. Col. P. G. Lasche, manager of the facility, will give an address of welcome and 26th District Legion Comm. Harry Welch will give a brief talk. Jack Morell will sing cowboy songs and play the accordion. At 2 p.m., a baseball game under the direction of Charles Stocker, athletic director, will climax the day.

On Monday, May 12, which is the official Hospital Day, open house will be held at the facility and visitors will be taken around the various shops and buildings.

DO LINES FORM OUTSIDE YOUR BATHROOM DOOR

This happens frequently in families when children grow up and it can be most irritating — and embarrassing when it involves guests. We've solved this problem for many families by utilizing space that could be spared for auxiliary facilities. There's no obligation to talk it over and to determine costs.
